Re: MM Docket No. 87-268  
Advanced Television Systems and Their Impact  
Upon the Existing Television Broadcast Service

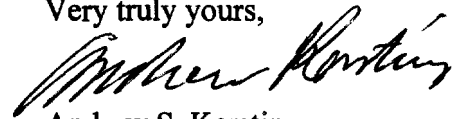

Dear Mr. Caton:

Transmitted herewith on behalf of Iberia Communications, L.L.C. ("Iberia Communications"), are an original and five copies of its comments in response to the *Sixth Further Notice of Proposed Rule Making*, 11 FCC Rcd 10968 (1996), in the above-referenced proceeding.

The deadline for filing comments in this proceeding originally was November 22, 1996. However, by *Order Extending Time for Filing Reply Comments*, DA 96-1929 (released November 20, 1996), the Commission announced that it would accept comments that are filed "within a reasonable period of time after the November 22, 1996, due date." *Id.* at ¶5. Because the date for filing reply comments has been extended to January 10, 1997, there should not be any prejudice to interested parties as a result of this brief extension of time. Accordingly, Iberia Communications respectfully requests that its comments be considered in this proceeding.

Should any questions arise concerning this matter, please communicate directly with this office.

Very truly yours,

Andrew S. Kersting  
Counsel for Iberia Communications, L.L.C.

To: The Secretary

**COMMENTS OF IBERIA COMMUNICATIONS, L.L.C.**

Iberia Communications, L.L.C. ("Iberia Communications"), applicant for a new television station to operate on Channel 36 at New Iberia, Louisiana, submits these comments in response to the *Sixth Further Notice of Proposed Rule Making*, 11 FCC Rcd 10968 (1996) ("*Sixth Further Notice*"), in the above-captioned proceeding.<sup>1</sup>

I.  
**Introduction**

The Commission allotted NTSC Channel 36 to New Iberia, Louisiana, as its only local television service, prior to 1974. Iberia Communications filed its application for Channel 36 at New Iberia on June 12, 1996 (File No. BPCT-960612KF). A subsequent application was filed for the same channel on September 20, 1996, by New Iberia 36, L.L.C. (File No. BPCT-960920YI).

---

<sup>1</sup> The deadline for filing comments in this proceeding originally was November 22, 1996. However, by *Order Extending Time for Filing Reply Comments*, DA 96-1929 (released November 20, 1996), the Commission announced that it would accept comments that are filed "within a reasonable period of time after the November 22, 1996, due date." *Id.* at ¶5. Because the date for filing reply comments has been extended to January 10, 1997, Iberia Communications does not believe that any prejudice to interested parties will result from this brief extension of time. Accordingly, Iberia Communications respectfully requests that its comments be considered in this proceeding.

Nevertheless, the allotment of Channel 36 at New Iberia has been omitted from the draft DTV Table of Allotments in this proceeding. *See Sixth Further Notice*, 11 FCC Rcd at 11035 (Appendix B). For the reasons stated herein, Iberia Communications respectfully requests that the Commission revise its draft DTV Table of Allotments to preserve the allotment of Channel 36 at New Iberia, or, alternatively, allot a substitute channel to that community.

## II.

### Retaining the Allotment of Channel 36 at New Iberia or Substituting an Alternative Suitable Channel to that Community Is Consistent With the Development of the DTV Table of Allotments and Will Serve the Public Interest

According to the 1990 U.S. Census, the city of New Iberia has a population of 31,706, which constitutes 46% of the population of Iberia Parish (68,297). New Iberia is projected to have a population of 36,134 by the year 2000, and is considered to be one of 54 communities which may become a Metropolitan Statistical Area by that time.<sup>2</sup>

Channel 36 was allotted to New Iberia prior to 1974, long before the Commission imposed its “freeze” on the filing of construction permit applications for new television stations.<sup>3</sup> Although a construction permit was issued to Tres Video Broadcasting, Ltd. (BPCT-830801KM), the permittee failed to construct the facility and the permit was ultimately rescinded on September 18, 1987, after the Commission’s ATV freeze had commenced. Thus, although the residents of New Iberia and the surrounding area have been waiting more than a decade for the community’s first local television

---

<sup>2</sup> Haya El Nasser, Deeann Glamser, “50,000 Population Mark,” USA Today, August 22, 1996, p. 2A.

<sup>3</sup> *Advanced Television Systems and Their Impact on the Existing Television Broadcast Service*, RM-5811, 1987 FCC LEXIS 3477 (July 17, 1987), 52 Fed. Reg. 28346 (1987) (“Freeze Order”).

service, that service has been blocked by a freeze which was triggered prior to the channel becoming available.

The draft DTV Table of Allotments set forth in the *Sixth Further Notice* does not preserve the existing NTSC Channel 36 allotment at New Iberia. Instead, the proposed Table assigns Channel 36 to the nearby community of Lake Charles, Louisiana, as the companion DTV channel for the existing Channel 7 allotment at Lake Charles. *Sixth Further Notice*, 11 FCC Rcd at 11035. The draft Table also assigns various channels to Stations WVLA(TV), Baton Rouge, KATC(TV), Lafayette, and KALB-TV, Alexandria, Louisiana, which further preclude the use of Channel 36 at New Iberia due to their UHF “taboo” relationships with the existing Channel 36 allotment. See Attached Engineering Statement of Mark B. Peabody (“Engineering Statement”), p. 2.

Although the Commission proposed to delete all vacant NTSC commercial allotments, in order to permit parties to file applications which were being prepared at the time the *Notice* was issued, the Commission announced that it would continue to accept applications for new NTSC stations that were filed no later than 30 days from the date the *Sixth Further Notice* was published in the Federal Register. *Sixth Further Notice*, 11 FCC Rcd at 10991-92, ¶¶58, 60. The Commission also stated that it would continue to process applications already on file and those that were filed “before the end of this filing opportunity” under its current policy of considering requests for waiver of its 1987 Freeze Order on a case-by-case basis.<sup>4</sup> *Id.* at 10992, ¶60. Thus, the *Sixth Further Notice*

---

<sup>4</sup> See *Freeze Order*.

made clear that the Commission has no intention of deleting allotments which are the subject of pending applications.<sup>5</sup>

As indicated above, there currently are two applications pending for the Channel 36 allotment at New Iberia. Both of these applications were filed before the cut-off date set forth in the *Sixth Further Notice*, and each requests a waiver of the Commission's Freeze Order. The relief sought herein regarding the Table of Allotments requires that the Commission also accept these applications. Acceptance of the applications will serve the compelling public interest objective of Section 307(b) of the Communications Act of providing a fair, efficient, and equitable distribution of television broadcast stations among the various states and communities.<sup>6</sup> Acceptance of the applications also will promote the second and third allotment priorities of providing each community with at least one television broadcast station and a choice of at least two television services to all parts of the U.S. *Sixth Report and Order*, 41 FCC at 167. Thus, in accordance with the *Sixth Further Notice*, both applications should be accepted for filing. *Sixth Further Notice*, 11 FCC Rcd at 10992, ¶60.

---

<sup>5</sup> This proposal is consistent with the Commission's decision in *Amendment of Section 73.606(b), Table of Allotments, TV Broadcast Stations (Willits, California)*, 10 FCC Rcd 7729 (Chief, Allocations Branch 1995), in which the Commission declined to delete the sole television channel allotted to a community, even though the applications pending for that facility were within an ATV freeze zone. The Commission found that retaining the channel was consistent with the second and third allotment priorities established in *Amendment of Section 3.606 of the Commission's Rules and Regulations*, 41 FCC 148, 167 (1952) ("*Sixth Report and Order*"), of providing each community with at least one television broadcast station and a choice of at least two television services to all parts of the U.S. 10 FCC Rcd 7731-32.

<sup>6</sup> 47 U.S.C. §307(b). See *National Broadcasting Co. v. U.S.*, 319 U.S. 190, 217 (1943) (goal of the Communications Act is to "secure the maximum benefits of radio to all the people of the United States"); *FCC v. Allentown Broadcasting Corp.*, 349 U.S. 358, 359-62 (1955) (goal of Section 307(b) is to "secure local means of expression").

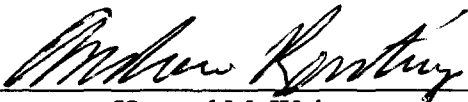

In the alternative, as demonstrated in the attached engineering statement, due to the relatively sparse population between New Orleans and Houston, there are a number of alternative channels that are suitable for allotment to New Iberia. *See* Engineering Statement, p. 3. Therefore, in the event the Commission should determine that it is not feasible to maintain the existing Channel 36 allotment at New Iberia, Iberia Communications requests that the Commission allot a substitute channel to permit the institution of a first local service at New Iberia and thereby promote the substantial public interest objectives of Section 307(b) of the Act.

### III. Conclusion

As demonstrated herein, the draft DTV Table of Allotments should be revised to reflect the existing NTSC allotment of Channel 36 at New Iberia, and the Commission should assign suitable alternative DTV channels to the communities of Lake Charles, Baton Rouge, Lafayette, and Alexandria, Louisiana. Alternatively, the Commission should assign a suitable replacement channel to New Iberia and revise the existing Table of Allotments and draft DTV Table of Allotments accordingly.

Respectfully submitted,

IBERIA COMMUNICATIONS, L.L.C.

**Engineering Statement**  
**Comments on the**  
**Sixth Notice of Proposed Rulemaking**  
**and the Draft DTV Table of Allotments**  
prepared for  
**Iberia Communications, L.L.C.**  
New Iberia, Louisiana - Ch. 36 - BPCT-960612KF

**Introduction**

Iberia Communications, L.L.C. ("Iberia Communications") has an application pending for a construction permit for a new UHF-TV station on Ch. 36 at New Iberia, Louisiana (BPCT-960612KF). Iberia Communications' application includes a request for a waiver of the July, 1987 HDTV freeze as the proposed transmitter site is 211.7 km from the reference point for New Orleans and 310.7 km from the reference point for Houston, Texas. Channel 36 was allotted to New Iberia, Louisiana prior to 1974. With the rescission of the CP issued to the first permittee, two applications have been filed to provide a first local service to New Iberia, Louisiana. Yet, the allotment of Channel 36 to New Iberia, Louisiana has been omitted from the proposed Draft Table of DTV allotments in the Sixth Further Notice of Proposed Rulemaking in MM Docket 87-268. The Commission's proposed Draft Table allots Channel 36 to nearby Lake Charles, Louisiana, thereby ignoring the unique status of the Ch. 36 allotment to New Iberia. Iberia Communications respectfully requests that the Commission consider the unique status of Ch. 36 at New Iberia and adjust its DTV Table of Allotments to continue to allot Ch. 36 or another suitable television channel to the community.

**Use of Ch. 36 at New Iberia Predates the HDTV allotment freeze.**

Use of the Ch. 36 allotment to New Iberia predates the development of the 1987 HDTV freeze. Channel 36 was allotted to New Iberia prior to 1974. A construction permit and call sign were issued to construct a facility (KYIS - BPCT-830801KM). For reasons that are not clear, the facility was never constructed and the construction permit was rescinded in September 1987. By the time the allotment was available for application by other interested parties, the HDTV freeze was in effect. In spite of the freeze, Iberia Communications has expressed an interest in serving New Iberia. An application has been tendered (BPCT-960612KF). Another application was filed subsequently by New Iberia 36, L.L.C. (BPCT-960920YI). However, the instant DTV rulemaking proceeding is proposing to delete the allotment. Iberia Communications is prosecuting its

## **Engineering Statement**

(Continued - Page 2 of 4)

application for a new service at New Iberia with all possible diligence in order to operate a television station which the citizens of New Iberia have been awaiting for over a decade. The allotment and proposed use of Channel 36 at New Iberia predates the HDTV freeze and therefore warrants continued consideration in the proposed DTV Table of Allotments.

### **New Iberia Is a Community of at least 33,104 People**

The 1990 U.S. Census reported 31,706 people in the city of New Iberia. This constitutes 46% of the population of the Iberia Parish (68,297). The 1995 projections by the U.S. Bureau of the Census report a population of 33,104 in the City of New Iberia. This would constitute 46.7% of the projected population of Iberia Parish (70,742). At present, neither Iberia Parish nor the city of New Iberia is part of any Metropolitan Statistical Area or urbanized area.

### **Proposed Draft DTV Table Uses "Vacant" New Iberia Allotment Nearby**

The proposed Draft DTV Table assigns Channel 36 as the DTV companion to Channel 7 at Lake Charles (KPLC-TV). The Draft DTV Table also assigns channels with "taboo" relationships to Channel 36 which further preclude the use of Ch. 36 at New Iberia: Ch. 34, WVLA, Baton Rouge; Ch. 41, KATC, Lafayette; and Ch. 43, KALB-TV, Alexandria.

### **Alternative Allotments for Lake Charles**

Iberia Communications respectfully requests the Commission to consider reincorporating the allotment of Ch. 36 at New Iberia by assigning some other DTV companion channels to Channel 7 at Lake Charles (KPLC-TV), WVLA, Baton Rouge; KATC, Lafayette; and KALB-TV, Alexandria. Among the channels that appear to be suitable to Lake Charles for KPLC-TV are Channels 46, 52, 53, 54, 56, 58, or 59. Attached as Tables Ia - Ig are summary data for channel studies illustrating compliance, or substantial compliance, with the existing and proposed minimum distance separation requirements for NTSC and DTV allotments for alternative channels for KPLC-TV at Lake Charles.

## **Engineering Statement**

(Continued - Page 3 of 4)

### **Alternative Allotments for Ch. 36 at New Iberia**

In the event that the Commission does not deem it practical to reincorporate Channel 36 at New Iberia in the proposed DTV Table, there are alternative channels to utilize at New Iberia. Included in this latter category are Channels 46, 57, 60, 61, 63, 64, 65, and 66. Attached as Tables IIa - IIh are summary data for channel studies illustrating compliance, or substantial compliance, with the existing and proposed minimum distance separation requirements for NTSC and DTV allotments for alternative channels for New Iberia.

### **Regional Allotment Groups**

In the event that a regional coordination/allotment scheme is adopted along the lines of what is contemplated by the Broadcasters Caucus, the National Association of Broadcasters, and the Maximum Service Telecasters, Iberia Communications requests that the Commission reincorporate Channel 36 or another channel as proposed herein for New Iberia in order to allow the first local service to New Iberia to survive. Iberia Communications will work within such a local regional coordination scheme to find a suitable allotment for New Iberia.

### **Sparse Communities and Allotments Provide a Multitude of Alternatives**

The attached tables illustrate that there are a variety of alternatives available to continue to provide a first local service to New Iberia. This is due mostly to the sparsely inhabited nature of the region between New Orleans and Houston. Iberia Communications acknowledges that the prospect of making a specific proposal to modify the Proposed DTV Table of Allotments to make room for New Iberia is akin to running tangentially in a straight line towards a moving target. Because of the unique nature of the Channel 36 allotment to New Iberia, and because this sparsely inhabited region can be served by a multitude of alternative channels, Iberia Communications believes that some accommodation can be reached for New Iberia. Other alternative channels might be identified by the Commission, should it decide not to delete the New Iberia allotment, but simply modify it. These would be welcome.

## **Engineering Statement**

(Continued - Page 4 of 4)

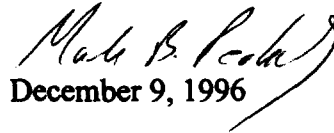

### **Conclusion**

The Commission's proposed Draft DTV Table allots Channel 36 to nearby Lake Charles, Louisiana, thereby ignoring the unique status of the Ch. 36 allotment to New Iberia. Iberia Communications respectfully requests that the Commission consider the unique status of the allotment to New Iberia and either make room in the proposed DTV Table of Allotments for the continued use of Ch. 36 at New Iberia or allow the existing applicants to use some other channel, including those identified herein, to provide a first local service to New Iberia, Louisiana.

### **Certification**

I, Mark B. Peabody, hereby certify that the foregoing statement was prepared by me or under my direction, that it is true and correct to the best of my knowledge and belief, and that my qualifications are a matter of record with the Federal Communications Commission.

Mark B. Peabody
